## Beef Lot 40

A protein, vitamins and mineral concentrate designed for mixing with crushed grain and roughage to provide a balanced ration for feedlot and lick feeder cattle

### Beef Lot 40 Concentrate Delivers:

**Tylan®** - For liver abscess control.

**Rumensin®** - For feed efficiency.

**Sodium Bi Carbonate** - Assists with acidosis prevention.

**Trace Minerals** - Beneficial in long term feeding.

### Lick Feeders in Paddock

- 960kg of grain (barley, wheat or sorghum preferably rolled or cracked)
- 40kg of **Beef Lot 40**
- Good quality green or dry feed or lucerne hay in the paddock.

**ACTIVE DRUG CONSTITUENTS:** Monensin - 625mg/kg used to improve feed efficiency in cattle. Tylosin - 275mg/kg used to assist the control of liver abscess.

**WARNING: DO NOT FEED TO DOGS, HORSES OR OTHER EQUINES, MAY BE FATAL.**

This product contains **UREA** and is poisonous if taken in excessive quantities or eaten quickly. Beef Lot 40 should not be fed as is and should be mixed with grain and roughage before feeding to stock.

**DIRECTIONS FOR USE:** Cattle should be introduced to grain on a gradual basis. The following table is a guide to starting cattle on a grain ration.
