

Calcium Molasses + 10% Urea

Dry Season

Properties: Feed is made palatable by providing Urea, Sodium, Calcium and Molasses. Provides sheep and cattle with these essential trace elements to continue healthy growth whilst grasses are drying off and dry matter value is deteriorating. Calcium Molasses + 10% is generally used until lambs and calves have been weaned.

Ingredients: Salt, Calcium carbonate, Urea, Molasses, Sodium chloride, Bentonite, Magnesium oxide, Copper sulphate, Zinc and Manganese.

NUTRIENT ANALYSIS	
Sodium Chloride (NaCl) Max	779.6 g/kg
Sodium Chloride (NaCl) Min	795.0 g/kg
Calcium Max	45.5 g/kg
Calcium Min	40.0 g/kg
Sulphur	36.8 g/kg
Iron	1.3 g/kg
Magnesium	228 mg/kg
Copper	85 mg/kg
Cobalt	61 mg/kg
Zinc	34 mg/kg
Manganese	6 mg/kg
Urea	10%

20kg Block
(Hard pressed)

Recommended feeding per 30 days
Dry season young stock on dry feed

Ruminant	Number of Stock	Number of blocks
Cattle	50	6
Sheep	100	2
Goats	100	2

The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of the animal will give different results. This product is suitable for ruminants only and not recommended for other animals. Please use the feeding table as a guide only and ensure feeding guide is introduced gradually to all animals, as unobserved diet changes can be detrimental to final results or the animals health.
