

Ewe & Lamb - 30% Lupins +10% Urea

***Ideal for ewes & lambs to help prevent lambing sickness
and pregnancy toxemia on dry feed.***

Properties: Feed is made palatable by providing Urea, Sodium, Calcium and Molasses. Ewe & Lamb - 30 Lupins +10% Urea is designed to entice reluctant ewes to seek out the lupin grains from the block structure whilst consuming the calcium and urea which is bitter. Salt and Molasses generally is sufficient as an attractant. The block is generally used for ewes about to lamb or having dropped the lamb and pasture is dry but plentiful.

Ingredients: Salt, Lupins, Molasses, Calcium carbonate, Mono di calcium phosphate, Zinc oxide, Magnesium sulphate, Copper sulphate, Potassium iodide, Sulphur, Manganese sulphate and Urea.

NUTRIENT ANALYSIS	
Lupins	30%
Salt Max	42%
Protein Min	8%
Molasses	6%
Sulphur	0.19%
Iron	0.02%
Phosphoric acid	10%
Magnesium sulphate	0.28%
Calcium carbonate	13%
Cobalt	0.14%
Zinc	0.47%
Manganese sulphate	0.013%
Iodine	0.5%
Urea	10%

20kg Block (Hard pressed)

Recommended feeding based on 1 block per number of head

Feed throughout pregnancy up to weaning

Number of Sheep or Goats	Number of Cattle	Number of days
70	10	28

The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of the animal will give different results. This product is suitable for ruminants only and not recommended for other animals. Please use the feeding table as a guide only and ensure feeding guide is introduced gradually to all animals, as unobserved diet changes can be detrimental to final results or the animals health.
