FUREAR 15% is a versatile protein and mineral block, suitable for feeding to cattle, sheep and goats grazing on either, dry mature pastures or green crops in the wet season.

Furear 15% can be fed to growing or breeding animals. Graziers can use these when sheep & cattle are grazing in the same paddock.

UREA activates microbes in the rumen that produce bacteria to effectively utilize dry grasses, scrub and stubble.

**The above table is a Nutrient Composition as fed. Actual ingredients and proportions of these nutrients may vary in micro analysis. Many factors influence feed quality and animal performance.

The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of the animal will give different results. This product is suitable for ruminants only and not recommended for other animals. Please use the feeding table as a guide only and ensure feeding guide is introduced gradually to all animals, as unobserved diet changes can be detrimental to final results or the animals health.
