

Kangaroo Cubes

For all Macropods.

Designed to maintain good health and well being for kangaroos in confined areas such as Zoo's, Council parklands and Research stations. Complete grain ration packed full of natural goodness. Lightly molassed for palatability, correctly balanced vitamins and minerals for overall health. Ingredients are carefully selected and steamed for high digestibility. Kangaroos are grass eaters and they need hay if pasture is not useable. When kangaroos are overstocked intestinal worms are a factor to be considered. Furneys can address this problem if the owners can provide a vet script to incorporate a wormer in the feed.

NUTRIENT ANALYSIS	
Crude Protein	14.0%
Crude Fat	5.0%
