Lamb Lot 40

A protein, vitamin and mineral concentrate for mixing with cereal grains, legumes and hay to provide a balanced ration for lot fed and lick feeder fed.

Lamb Lot 40 Concentrate Delivers:

Bovatec® - Feed conversion efficiency and coccidiosis control. **Urea** - 1% has proven digestive benefits.
Sodium Bi Carbonate - Assists with acidosis prevention. **Trace Minerals** - Health assured.

TYPICAL NUTRIENT ANALYSIS (Per KG)	
Total Crude Protein (min)	40%
N.D.F	89%
Dry Matter	96%
Urea	4%
Max Crude Fat	1.8%
Min Calcium	12%
Max Salt	11%
Min Sulphur	4.02%
Min Phosphorus	0.45%
Max Fluorine	0.1%

TYPICAL VITAMIN & MINERAL CONTENT	
Min Manganese	0.79%
Min Copper	180 mg/kg
Min Iodine	15 mg/kg
Min Zinc	750 mg/kg
Min Cobalt	3.02 mg/kg
Min Selenium	6000 mg/kg
Min Vitamin A	12,000 IU/kg
Min Vitamin D	800 IU/kg
Min Vitamin E	240 mg/kg
Lasolcid Bovatec ®	750 mg/kg

Bovatec is the registered trade mark of Alpharma Inc.

FEEDING DIRECTIONS

Day	Hay	Legumes	Cereal Grains	Lamb Lot 40
1 & 2	Hay only	Nil	Nil	Nil
3 to 10	700kg	100kg	200kg	40kg
11 to 18	500kg	200kg	300kg	40kg
19 +	150kg	300kg	500kg	40kg

(Above figures are rounded approx)

Feeding

Trough: Troughs need to provide lambs with 12cm of headroom each. Trials show if all lambs can feed at the same time there is a limited tailing when objective weight gains are reached.

Lick Feeders: Lick feeders are not the preferred feeding method, however since they are prevalent adjustment and control for the first 10 days is important.

Lamb Lot 40 provides the rumen acidosis prevention where gradual and controlled uptake occurs, coccidiosis control and feed conversion efficiency. Urea at 1% of the ration has proven to be advantageous. Lamb Lot 40 must be inducted at the recommended rate of 40kg per ton from Day 3 onwards.

Note: Lambs can digest all grains given time, however advantages are gained if legumes are cracked.
Critically Important: Water must be fresh and cool. Water troughs need cleaning out regularly.

WARNING: DO NOT FEED TO DOGS, HORSES OR OTHER EQUINES, MAY BE FATAL.

This product contains **UREA** and is poisonous if taken in excessive quantities or eaten quickly. Lamb Lot 40 should not be fed as is and should be mixed with grain and roughage before feeding to stock.

WITHHOLDING PERIOD: Nil.

STORAGE: Store below 30°C in a cool dry place, under cover.

DATE OF MANUFACTURE: (See stamped date on bag)

Use within 12 months from the date of manufacture.

CONDITIONS OF SALE: The use of this product being beyond the control of the manufacturer, no warranty is given and none shall be implied as to its suitability or fitness for any particular purpose. The manufacturer accepts no responsibility for any consequences whatsoever arising from the use of this product.

Available in 20kg bag
