Feeding Guide

Furneys Stud Breeder Komplete should be introduced to your horses diet gradually over a 2-3 week period. Feed in conjunction with good quality hay or pasture. Ensure clean water is accessible at all times. Feed intake may vary depending on environment, age, breed and work intensity.

Adjust Furneys Stud Breeder Komplete to meet your desired body condition score. As a guide your horse must receive 1% of its bodyweight in roughage e.g. 500kg to receive minimum 5.0kg roughage per day.

Contact Furneys Stockfeeds for further nutritional advice.
