### Daily Feeding Guide

If upgrading ration use 3% of body weight for best performance feed early and late in the day. Once bulls and cows are over eating move to Stud Cattle Finisher which has more barley in the mixture. See Finisher brochure.

### **This product does not contain restricted animal material**

This product is suitable for cattle only. The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of cattle will give different results. Please use the feeding table as a guide only and ensure feeding guide is introduced gradually, as unobserved diet changes can be detrimental to the final results and/or the animals health.
