Eskalin can be added with an S4 Vet script.

This product contains Urea.

This product does not contain restricted animal material.

Cattle	Feeding Rate
Penned Stock	3% of body weight as finishing feed.
Paddocked Stock	1% of body weight in feeders as a finishing feed.

This product is suitable for cattle only. The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of cattle will give different results. Please use the feeding table as a guide only and ensure feeding guide is introduced gradually, as unobserved diet changes can be detrimental to the final results and/or the animals health.
