Furneys Furear 15% Dry Season Block is a versatile protein and mineral block, suitable for feeding to cattle, sheep and goats grazing on either, dry mature pastures. Furear 15% can be fed to growing or breeding animals. Graziers can use these when sheep and cattle are grazing in the same paddock. Urea activates microbes in the rumen that produce bacteria to effectively utilise dry grasses, scrub and stubble.

### FEEDING GUIDE

Furneys Furear 15% Dry Season Blocks are recommended to be fed based on the feeding table below. Do not feed to starving animals or animals in poor condition. Ensure there is sufficient forage available when feeding this product and be wary when product is wet.
