ZINC	500 mg/kg

Furneys Furear 30% Dry Season Block is a protein and mineral block suitable for supplementing cattle not eating sufficient dry, mature, low protein pastures and scrub during dry seasons in phosphorous deficient country such as Western NSW, QLD, NT and WA.

Note: For higher phosphorous see Furney's Uphos range.

FEEDING GUIDE

Furneys Furear 30% Dry Season Blocks are recommended to be fed based on the feeding table below. Do not feed to equines, starving animals or animals in poor condition. Ensure there is sufficient forage available when feeding this product and be wary when product is wet.

FEEDING TABLE

ANIMAL TYPE	NUMBER OF HEAD	NUMBER OF BLOCKS	NUMBER OF DAYS
CATTLE	50	6	30
CATTLE	100	11	30
SHEEP	100	2	30
SHEEP	1000	24	30

INGREDIENTS

Urea, Molasses, Salt, Calcium carbonate, Di-calcium phosphate, Iron sulphate, Sulphur, Copper sulphate, Limestone and Zinc Oxide

UREA is not a protein, it is a simple nitrogen compound and may be harmful when supplemented incorrectly.

WARNING DO NOT FEED TO DOGS, HORSES OR OTHER EQUINES AS IT MAY BE FATAL

This product is suitable for sheep and cattle only and not recommended for other animals. The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of the animal will give different results. Please use the feeding table as a guide only and ensure feeding is introduced gradually to all animals, as unobserved diet changes can be detrimental to final results or the animals health. This product contains Urea, keep the product dry and ensure it drains well. This product does not contain restricted animal material. Always ensure clean drinking water is available.
