FERROUS IRON	150 mg/kg
IODINE	20 mg/kg
MANGANESE	200 mg/kg
SELENIUM	5 mg/kg
ZINC	500 mg/kg

Furneys Magnesium Block 27% is designed to assist in the control of grass tetany in sheep, cattle and goats. Grass tetany generally occurs within two weeks of livestock being put on fresh Autumn or Spring pastures (young quick growth, referred to as watery pastures.)

Magnesium improves calcium and phosphorous metabolism in sheep, cattle and goats and has a sparing effect on Vitamin D and is an essential part of the bony skeleton.

### FEEDING GUIDE

Furneys Magnesium Blocks are recommended to be fed based on 1 block per number of head, refer to feeding table below.

### FEEDING TABLE

ANIMAL TYPE	NUMBER OF HEAD	NUMBER OF DAYS
CATTLE & HORSES	10	28

### WARNING

This product is suitable for sheep, cattle and goats only and is not recommended for other animals. The above feeding rates are a guide only. Variations due to pasture quality, climate, workload and age of the animal will give different results. Please use the feeding table as a guide only and ensure feeding is introduced gradually to all animals, as unobserved diet changes can be detrimental to final results or the animals health. This product does not contain UREA. This product does not contain restricted animal material. Always ensure clean drinking water is available.
