

# BABY CALF PELLETS 21%

AVAILABLE IN 30KG BAGS & BULKA BAGS

FURNEYS BABY CALF PELLETS 21% IS A HIGH PROTEIN FEED FOR CALVES (DAIRY & BEEF BREEDS) FROM DAY 3, WHILST BEING HAND OR BOTTLE REARED.

-  **High Quality Protein For Improved Growth Rate**  
Containing premium and high quality proteins including vegetable proteins, soyabean meal full fat and cottonseed meal. This palatable feed is formulated to provide muscle development and a balanced diet to start calves on solid feed.
-  **Vitamins and Minerals**  
Fortified with essential minerals to benefit with long term feeding.
-  **Contains Rumensin 100**  
Rumensin 100 will improve the growth rate as well as your feed conversion efficiency.
-  **4mm Pellet Cut Short**

-  **Feeding Guide**  
We recommend that Furneys Baby Calf Pellets 21% are introduced to calves within the first 7 days in conjunction with colostrum and milk substitutes. The starting ration should be up to 500g per calf per day, remove any uneaten pellets to ensure a fresh supply of feed is maintained. After 7 days, feed to appetite and when feed intake for 3 consecutive days exceeds 2kg per calf per day, weaning off milk can commence (50-60 days old). We also recommend starting roughage (i.e. hay, forage, straw etc) within the first 7 days to encourage rumen volume, muscle tone development and encourage salivation.

## CRITICAL INFORMATION

### COLOSTRUM

A mothers colostrum is essential for the first 48 hours to ensure the calf receives the natural colostrum and transitional milk i.e. leaving the calf on its mother for the first 4 milkings will give great results. Introduce powdered milk replacer program and pellets by hand. **Substitute colostrum are available.**

### DEHYDRATION

Be vigilant for signs of dehydration and keep electrolytes readily available.

See our website for further information.

### Ingredients

Barley Grain, Wheat Grain, Millrun, Soyabean Meal, Canola Meal, Cottonseed Meal, Sucrose, Lime, Mono Di Calcium Phosphate, Salt, Sodium Bentonite, Sodium Bicarbonate, Rumensin 10% Premix, Furneys Cattle Premix and Cane Molasses.

## WARNING

This product is suitable for cattle only and not recommended for other animals. The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of the animal will give different results. Please use the feeding table as a guide only and ensure feeding is introduced gradually to all animals, as unobserved diet changes can be detrimental to final results or the animals health. This product does not contain restricted animal material. This product contains Monensin at 50 mg/kg. This product contains Rumensin to aid the prevention of coccidiosis. Always ensure clean drinking water is available.
