

## LICK OR LOT + RUMENSIN

AVAILABLE IN 25KG BAGS

FURNEYS LICK OR LOT + RUMENSIN IS JUST THAT; A SUPPLEMENT LOOSE LICK AND/OR A FEEDLOT ADDITIVE FOR CATTLE.

### Added RUMENSIN To Increase Energy & Reduce Bloat

RUMENSIN™ increases the efficiency of the energy available from all feed consumed by the animal, reduces the incidence of feedlot bloat and enhances productivity by increasing the rate of weight gain and improving feed conversion efficiency of the animal.

### Feeding Guide

#### FEEDING WITH DRY ROUGHAGE

Furneys Lick or Lot + Rumensin can be used as a supplement in lick feeders or troughing at 250g per head per day for weaner type cattle with cereal grain (cracked barley preferably.)

Starting – Pour limited amount into trough, make sure stock are introduced to this until you are satisfied all stock are licking the supplement. Then add grain mix. Ensure cattle have access to pasture at all times.

#### FEEDING AS A FEEDLOT ADDITIVE

Furneys Lick or Lot + Rumensin can be fed as a feedlot additive. We recommend feeding Furneys Lick or Lot + Rumensin including 120kg of lick with 750kg of grain (barley cracked). Have either plenty of dry grass in the paddock or include hay.

### NUTRITIONAL ANALYSIS

CRUDE PROTEIN	35.0%

**WARNING DO NOT FEED TO DOGS, HORSES OR OTHER EQUINES AS IT MAY BE FATAL. RUMENSIN IS NOT REGISTERED FOR GOATS OR DEER.**

This product is suitable for sheep and cattle only and not recommended for other animals. The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of the animal will give different results. Please use the feeding table as a guide only and ensure feeding is introduced gradually to all animals, as unobserved diet changes can be detrimental to final results or the animals health. This product contains Urea, keep the product dry and ensure it drains well. This product does not contain restricted animal material. Always ensure clean drinking water is available.
