-  **Nutritionally Balanced Feed**
Furneys Utility Pellets are a nutritionally balanced pellet to meet vitamin and mineral requirements for healthy growing animals.
-  **Great Health and Wellbeing**
Fortified with vitamin A, D and E Furneys Utility Pellet is full of all natural ingredients that provide the right energy for your furry friends.
-  **Whole Feed**
Furneys Utility Pellets can be fed on their own, though it is best to include other roughage in their diet such as Lucerne Hay, straw or chaff.
-  **Pellet Size 8-10mm**

 **Feeding Guide**
Furneys Utility Pet Pellets should be fed ad lib along with cool, clean, fresh water. Do not make sudden changes in diet as digestive problems may occur. Grass and hay may be fed along with Furneys Utility Pellets if desired. Furneys Utility pellets should be fed based on individual animal requirements as all pets have variable consumption rates. A broad cover would be to feed approximately 2.5% of body weight, comprising of hay and utility pet pellets. Furneys advise that pets should have their feed replaced daily and that a small amount of Lucerne hay be on hand at all times.

NUTRITIONAL ANALYSIS	
CRUDE PROTEIN	17.0%

Lucerne Chaff, Oaten Chaff, Wheat Chaff, Barley Grain, Wheat Grain, Cottonseed Meal, Soyabean Meal, Lime, Mono Di Calcium Phosphate, Salt, Furneys Ruminant Premix, Rovimix E 50 Adsorbate, Vegetable Oil And Kemin Myco curb.

WARNING
This product is suitable for all herbivores such as mice, rats, guinea pigs, gerbils, goats, sheep, rabbits, ponys, alpacas and lamas and is not recommended for other animals. The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of the animal will give different results. Please use the feeding table as a guide only and ensure feeding is introduced gradually to all animals, as unobserved diet changes can be detrimental to final results or the animals health. This product does not contain restricted animal material. Always ensure clean drinking water is available.
